HOW TO USE STATION PLAYLIST

How To Turn On Station Playlist

1. Locate the channel marked "BOOTHCOMP" on the board. It is the second one from the left.
2. At the very top of the channel, above a sticker that says "A: AUTOMATION B: BOOTHCOMP", is a button. Look at the button.
3. If the button is lit up (it will be orange), then Station Playlist is OFF and you can play things from the Booth Computer. This is normally how you will find the studio if someone is on before you.
4. When you want to turn on Station Playlist, press the button you looked at in Step 3. It should stop being lit up (and no longer orange) and you should hear music playing.
5. That was it, you turned on Station Playlist. Check the meters and adjust the volume slider on the "BOOTHCOMP" channel accordingly.

How To Turn Off Station Playlist

1. Locate the channel marked "BOOTHCOMP" on the board. It is the second one from the left.
2. At the very top of the channel, above a sticker that says "A: AUTOMATION B: BOOTHCOMP", is a button. Look at the button.
3. If the button is not lit up (it will not be orange), then Station Playlist is ON so you can't play things from the Booth Computer. This is normally how you will find the studio if nobody is on before you.

4. If You want to turn off Station Playlist, press the button you looked at in Step 3. It should light up (and turn orange) and you should stop hearing the Station Playlist music playing.
