

What to do if...

The NEXT SHOW IS IN STATION PLAYLIST

1. Station playlist shares a channel with the studio computer. It's labeled on the board in neon yellow.
2. You switch between the two by pressing the A/B button. It lights up when it's on B.
3. When it is unlit, like the other channels, it is set to Station Playlist. When it is lit, it is set to the studio computer.
4. The ideal volume range is indicated with a little yellow tape, but if possible, adjust the volume as necessary.
